

Factsheet: ThyssenKrupp Group

(As of: November 2008)

ThyssenKrupp is one of the world's biggest technology groups. Almost 200.000 employees worldwide work in the group's main areas of steel, capital goods and services, realizing sales of more than €53 billion in fiscal 2007/2008. Alongside product manufacturing, we are increasingly concentrating on system solutions and innovative services in our five segments Steel, Stainless, Technologies, Elevator and Services. We shall continue to optimize our portfolio to ensure the long-term profitability and value of the company.
