

Tim and Sascha Krefta, 14

**“Our dad says almost anything’s possible with e-commerce. Even little elephants!”**

**Even the most unusual customer requests are rarely a problem for Tim and Sascha’s father. Customized materials are his day-to-day business – and of course not just little elephants.**

**A brilliant e-commerce solution.**

Volker Krefta and his colleagues at ThyssenKrupp have developed a unique e-commerce solution for the materials business. Customers can use it to check on the status of their orders at any time. They have direct online access to a range of 80,000 steel, stainless steel, nonferrous metal and plastic products.

Innovative service and sales ideas are in demand. And that’s another reason why ThyssenKrupp is such an attractive investment.

**Developing the future.**
